

European Network of AI Excellence Centres

# **ADR Conference**

## **Brussels, October 18, 2022**

### **Introduction to ELISE**

Petri Myllymäki  
Aalto University & University of Helsinki

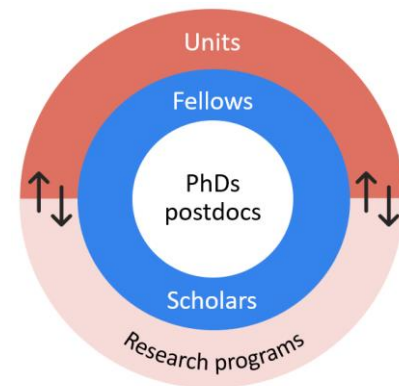

ELISE has received funding from the European Union's Horizon 2020 research and innovation programme under Grant agreement No 951847.

# ELISE - towards an excellence-driven network of AI lighthouses

- Locally grounded cooperating hubs
- Excellence-based depth of research across a wide range of strategic fields
- Mechanisms to enable this cooperation:
  - Research programs
  - ELLIS Units: 35 units in 14 countries
  - ELLIS Pan-European PhD Program
  - Mobility for Fellows, Scholars and Students
  - Grassroot collaborations with the surrounding ecosystem

# ELISE success stories

## Strategic Research Agenda

- Sets out ELISE's roadmap for creating trustworthy AI technologies
- Outlines how technological advances can contribute to European policy ambitions for AI
- Building on excellence in ML research, one of the most important current drivers of innovation

## Pan-European PhD program

- Aims at being world's leading ML PhD brand, central to the attractiveness of Europe
- Enrolled 197 PhDs and postdocs from over 3,000 applications
- Six months exchange with academic or industry partner

# Setting up a powerhouse of European AI

## Attracting new talent and industry investment by a network of outstanding ML hubs

- **Scientific:** tightly-knit community of 800+ excellent AI scientists, incl. 158 ERC grant winners; ELLIS Fellows' median h-index 53; 400+ NeurIPS22 papers by ELLIS members
- **Industry collaboration:** e.g. research program leaders with double affiliations (Siemens, Qualcomm, Vodafone, Microsoft, NVIDIA, etc.)
- **SMEs and startups:** e.g. supporting new SMEs and startups selected by open calls (1st call success rate 4%)
- **PhD training:** fast-expanding program pairing outstanding students with leading academic and industrial researchers.
